

Pedro Neves | The Digital MBA

BOLD ENTREPRENEUR READY FOR A NEW CHALLENGE

Pedro puts his total energy and passion into every challenge of his life.

Pedro's career has been around Orthopaedics and Trauma Surgery and chose it, amongst other areas, due to its significant challenge. Later on, he subspecialized in spine surgery which has been his main activity after he finished his residency in 2018. Since then, Pedro remained working at the same hospital as a Specialist, and he earned his position after 6 years of full dedication and hard work.

In 2020, he and two other colleagues founded Arthos, an independent group of Orthopaedic Surgeons in Porto. In the past few years, he has been investing in several other personal and group projects, such as endoscopic spine surgery, acquiring a European Diploma in Orthopaedics, pursuing his passion for working in Sports Medicine in football clubs, and designing his ideas for a new business in which this MBA is serving a great source of inspiration and knowledge.

Pedro had a few part-time jobs as a young teenager that have taught him some valuable lessons. The biggest one was when he had the opportunity to work as a child party entertainer doing something that he loved, and that helped him overcome his shyness and be more confident. He chooses the paths he believes in most and feels more energized by being surrounded by people and novelty. Pedro never dismisses an opportunity or an adventure and is ready for what the future may bring.
